

Hire-Archy User Guide

Hire-Archy is a cloud hosted human capital management web-application, aiming to provide a clear and functional way to view an organisation's structure at any scale. Managing employee data, viewing hierarchical structure, and managing leave processes have never been this easy.

Getting Started

Hire-Archy can be accessed using this link: <https://hire-archy-epi.vercel.app>

There are 3 different roles that can be used to access Hire-Archy: **HR**, **MANAGER**, and **EMPLOYEE**.

HR:

This role has the highest access to all functionalities. It can create, read, update and delete employee data, as well as view and edit the entire organisation's reporting structure. This role can approve or reject any other role's leave requests while also being able to submit their own.

MANAGER:

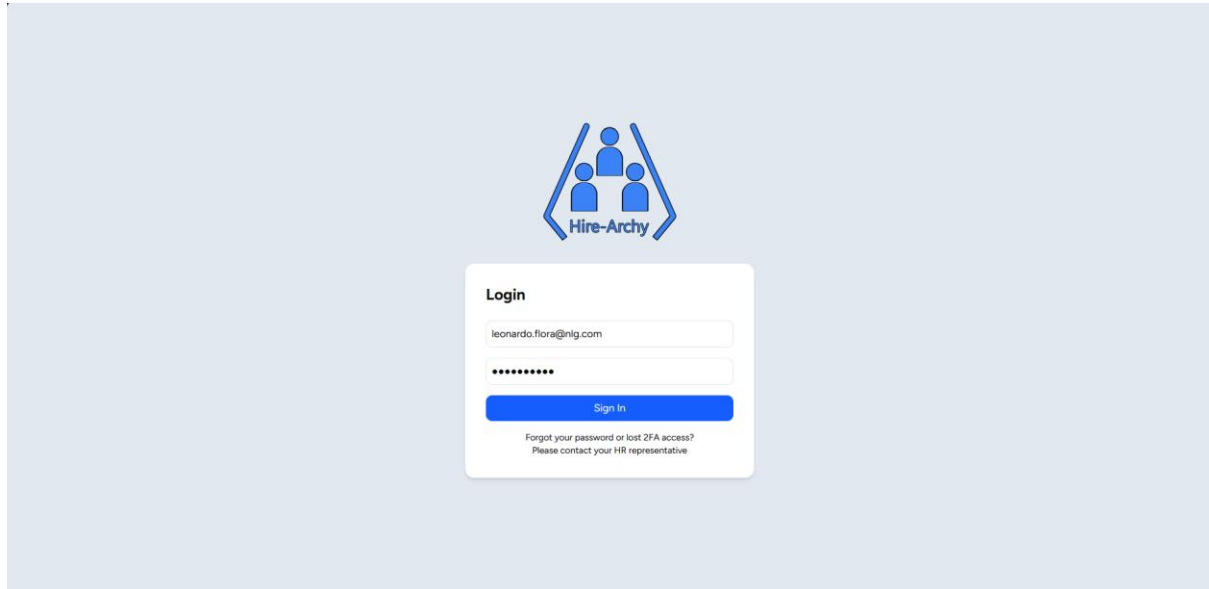

This role has limited access to functionalities. Being able to view and edit subordinate's job-related information (job title, salary) and reporting structure below themselves and who they report to. This role can approve or reject leave requests from subordinates.

EMPLOYEE:

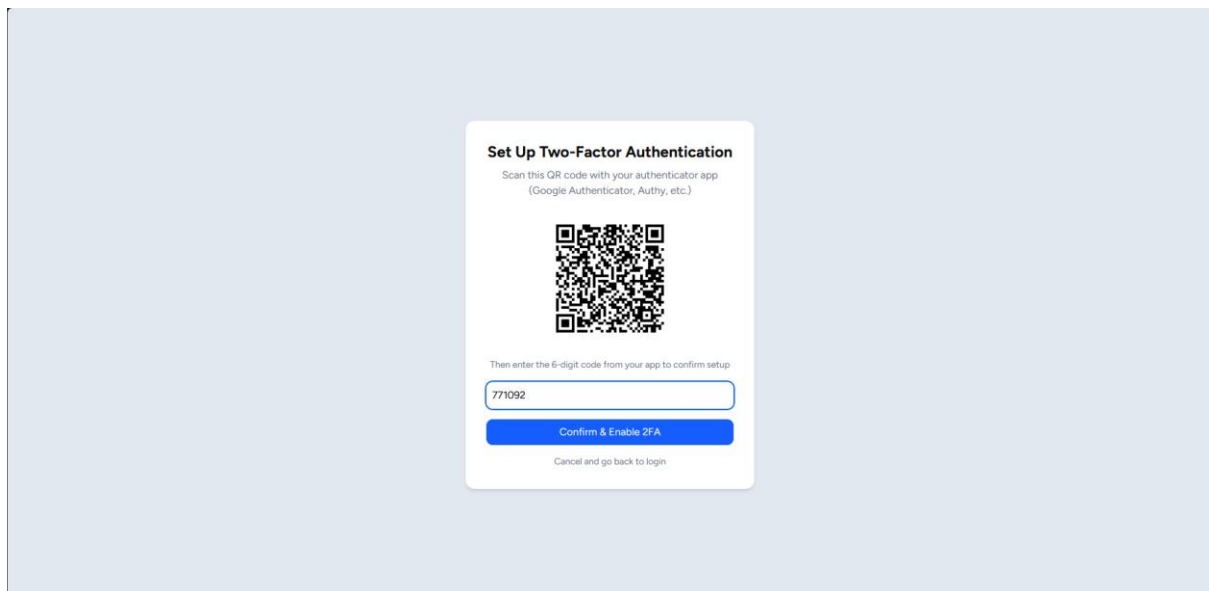

This is the most basic role, only being able to view their own information and their local organisation structure. This role can only submit their own leave.

Logging in for the first time

When a user logs in for the first time, they must use the temporary password provided to them along with the email their account is registered to. This can be any email address, but for the purpose of this demonstration, fictional email addresses were assigned. Feel free to register new employees with real email addresses.

After the user has logged in, they will be prompted to register a TOTP authenticator. Many popular authenticator apps can be used for this, such as, Microsoft Authenticator, Authy, 2FA Authenticator. The user just needs to scan the provided QR code and enter the code provided by the authenticator.

After entering the TOTP code, the user needs to set a new password that meets the minimum requirements.

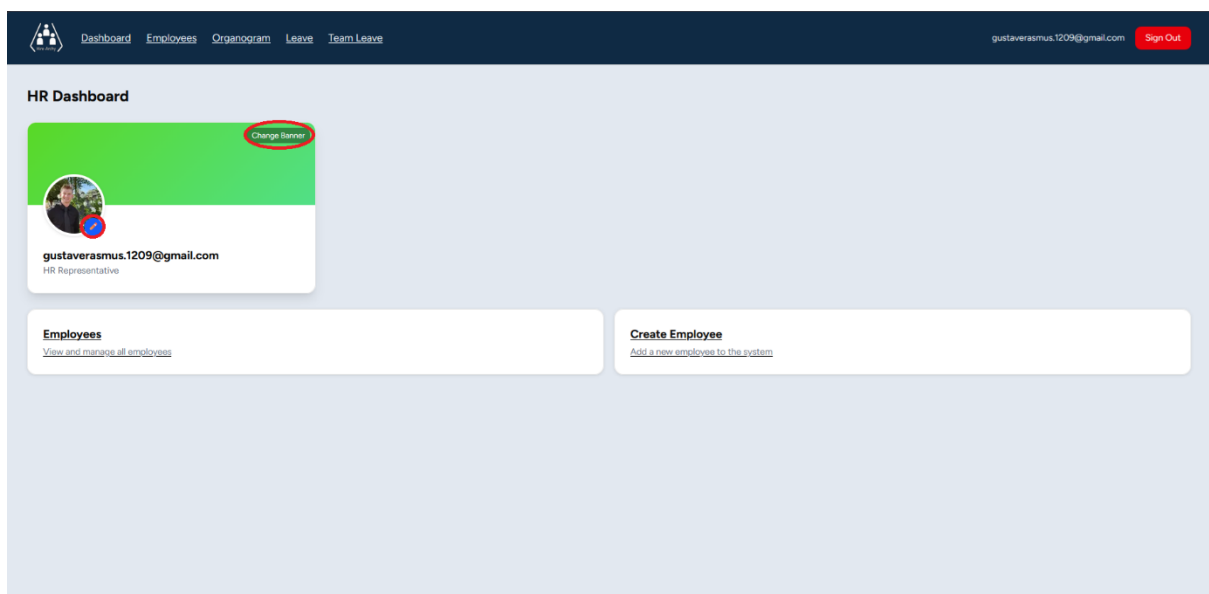

A screenshot of a 'Change Password' form. The form has a title 'Change Password' and a subtitle 'Please set a new password before continuing.' Below the subtitle are two password input fields, each containing a series of dots. Under the input fields, there is a list of requirements: 'At least 8 characters', 'At least one capital letter', 'At least one lowercase letter', 'At least one special character', and 'Cannot contain your email username'. At the bottom of the form is a blue button labeled 'Set New Password'.

Welcome to the dashboard

Depending on which role the logged in account has, only certain elements would be visible.

HR roles would see all the possible elements, whereas managers would only see the basic elements along with “Leave” and “Team Leave” options and employees would only see the basic ones. (“Dashboard”, “Organogram” and “Leave”)

The employee card’s profile picture and banner can be updated by the indicated buttons. The rest of the app’s features can be explored by using the Navigation bar at the top of the screen. If an employee’s email address exists on <https://en.gravatar.com>, it will automatically appear on their user card and saved in the application’s database. When uploading a custom profile, this profile picture is overwritten in the database and will appear by default.

Employees

The employees page is only accessible by HR roles and features the employee list. This page has a few features:

Employee #	Name	Position	Email	Manager	Role	Status
EMP002	Clemens Linford	Chief Executive Officer (CEO)	clemens.linford@nlg.com	—	MANAGER	Active
EMP003	Eunice Klaas	Head Of Human Resources	eunice.klaas@nlg.com	Clemens Linford (EMP002)	HR	Active
EMP004	Tomaso Gio	Chief Financial Officer (CFO)	tomaso.gio@nlg.com	Clemens Linford (EMP002)	MANAGER	Active
EMP005	Foster Keegan	Chief Operations Officer (COO)	foster.keegan@nlg.com	Clemens Linford (EMP002)	MANAGER	Active
EMP006	Tumaini Nsonowa	Gauteng Regional Manager	tumaini.nsonowa@nlg.com	Foster Keegan (EMP005)	MANAGER	Active
EMP007	Heinrich Usman	Western Cape Regional Manager	heinrich.usman@nlg.com	Foster Keegan (EMP005)	MANAGER	Active
EMP008	Shaukat Aniole	KZN Regional Manager	shaukat.aniole@nlg.com	Foster Keegan (EMP005)	MANAGER	Active
EMP009	Vera Khurram	Warehouse Picker	vera.khurram@nlg.com	Shaukat Aniole (EMP008)	EMPLOYEE	Active
EMP010	Lesedi Elodie	Warehouse Picker	lesedi.elodie@nlg.com	Shaukat Aniole (EMP008)	EMPLOYEE	Active
EMP011	Mukhtaar Placido	Warehouse Picker	mukhtaar.placido@nlg.com	Shaukat Aniole (EMP008)	EMPLOYEE	Active
EMP012	Blake Hayat	Warehouse Picker	blake.hayat@nlg.com	Heinrich Usman (EMP007)	EMPLOYEE	Active

1. All employees can be searched using keywords related to their employee number, name, position, role or email address and can be filtered by using the table headers. Active and inactive employees can be chosen to display or not by the dropdown on the right side.
2. Clicking on an employee's name opens the employee's profile which features critical functionality.
3. A new employee can be created using the “New Employee” button.

Editing an existing employee

When clicking on an employee's name, the below page opens. This page allows HR to change any information listed (except employee number) as well as disable an employee or delete them permanently.

Employee Number
EMP012

First Name
Blake

Birth Date
05/03/2000

Gross Salary
R356,000

Reporting Manager
Heinrich Usman - Western Cape Regional Manager (EMP007)

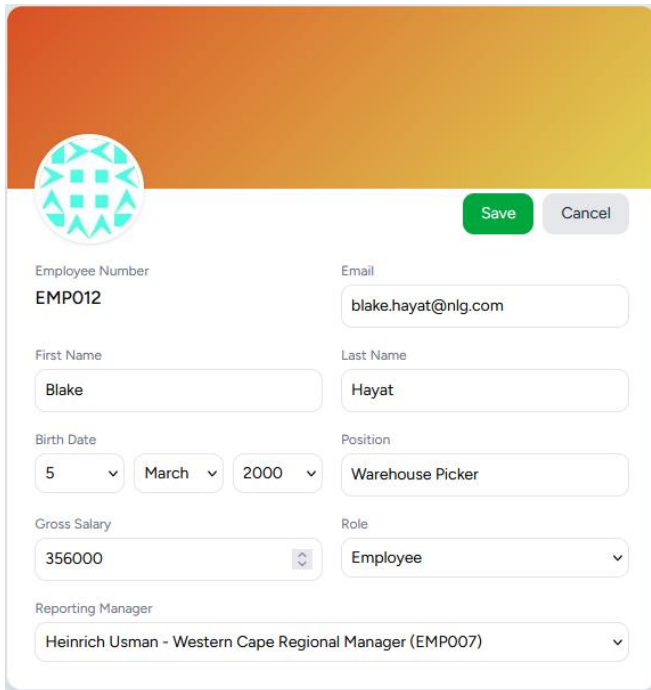

Email
blake.hayat@nlg.com

Last Name
Hayat

Position
Warehouse Picker

Role
EMPLOYEE

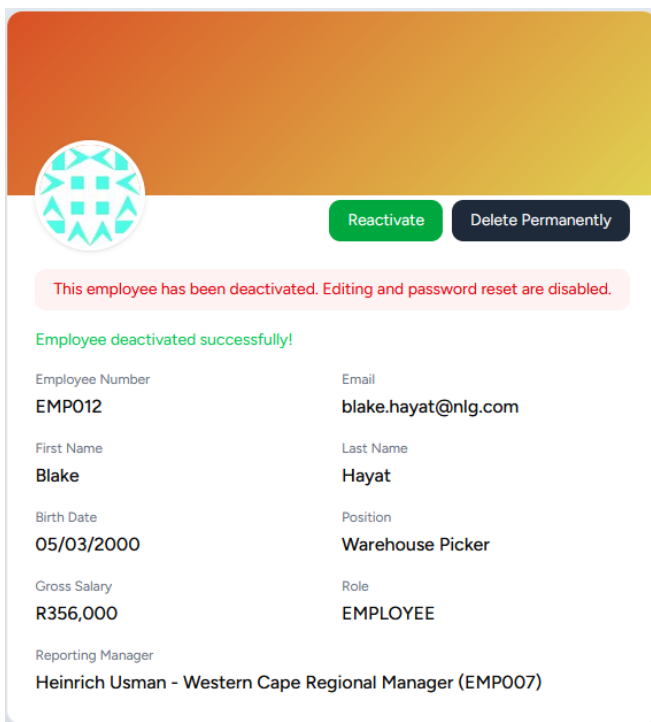

Editing page – this page displays an overview of the employee’s information, both personal information and job-related information.

The image shows a web form for editing employee information. At the top left is a circular logo with a geometric pattern. To its right are 'Save' and 'Cancel' buttons. The form contains the following fields:

- Employee Number:** EMP012
- Email:** blake.hayat@nlg.com
- First Name:** Blake
- Last Name:** Hayat
- Birth Date:** 5 March 2000 (using dropdowns)
- Position:** Warehouse Picker
- Gross Salary:** 356000 (with a small up/down arrow icon)
- Role:** Employee (dropdown menu)
- Reporting Manager:** Heinrich Usman - Western Cape Regional Manager (EMP007) (dropdown menu)

Editing mode – allows for any information to be edited, personal and job-related. Managers would be able to view and edit employees as well, but only job-related info.

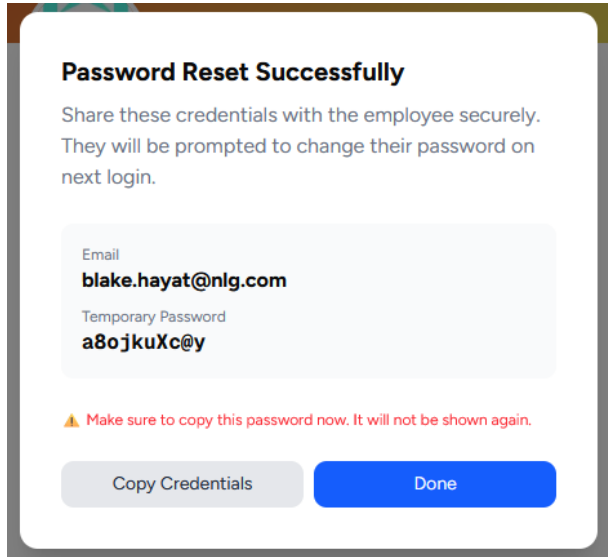

The image shows a web page for a deactivated employee. At the top left is the same circular logo. To its right are 'Reactivate' and 'Delete Permanently' buttons. A red message box states: 'This employee has been deactivated. Editing and password reset are disabled.' Below this is a green message: 'Employee deactivated successfully!'. The employee information is displayed in a read-only format:

- Employee Number:** EMP012
- Email:** blake.hayat@nlg.com
- First Name:** Blake
- Last Name:** Hayat
- Birth Date:** 05/03/2000
- Position:** Warehouse Picker
- Gross Salary:** R356,000
- Role:** EMPLOYEE
- Reporting Manager:** Heinrich Usman - Western Cape Regional Manager (EMP007)

Deactivated mode – deleting an employee permanently removes their information and cascading information (such as leave requests and balances) from the database.

Resetting an employee's password

When resetting an employee's password, a temporary password will be provided to the HR user to communicate to the employee via email or any other secure method. When the employee logs in with this temporary password, they will be prompted to register their two-factor authentication again and reset their password to something secure.

Password Reset Successfully

Share these credentials with the employee securely. They will be prompted to change their password on next login.

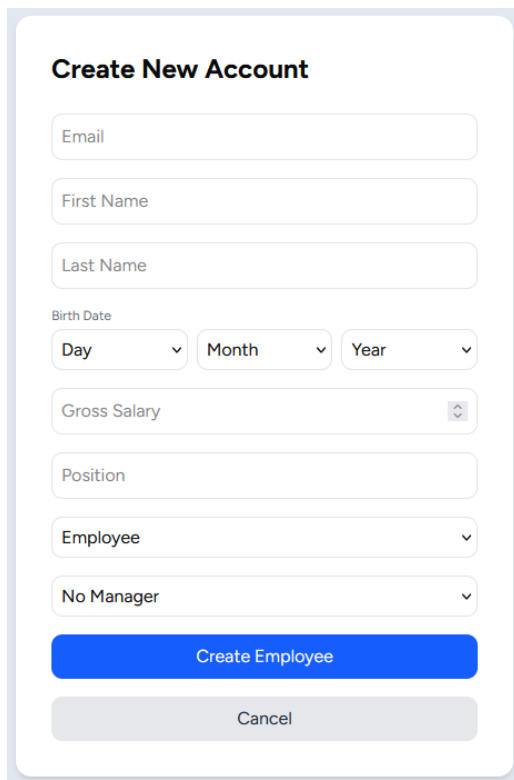

Email
blake.hayat@nlg.com

Temporary Password
a8ojkuXc@y

⚠ Make sure to copy this password now. It will not be shown again.

Creating a new employee

When creating a new employee, it is expected that the employee has a secure email that can be registered to their account. On this page the employee's information is entered, and an employee number is automatically assigned to them (employee numbers cannot be reused even when an employee is permanently deleted). This information is then stored in the remote database.

No Manager

Organogram

The organogram page presents a visual representation of the company's hierarchy.

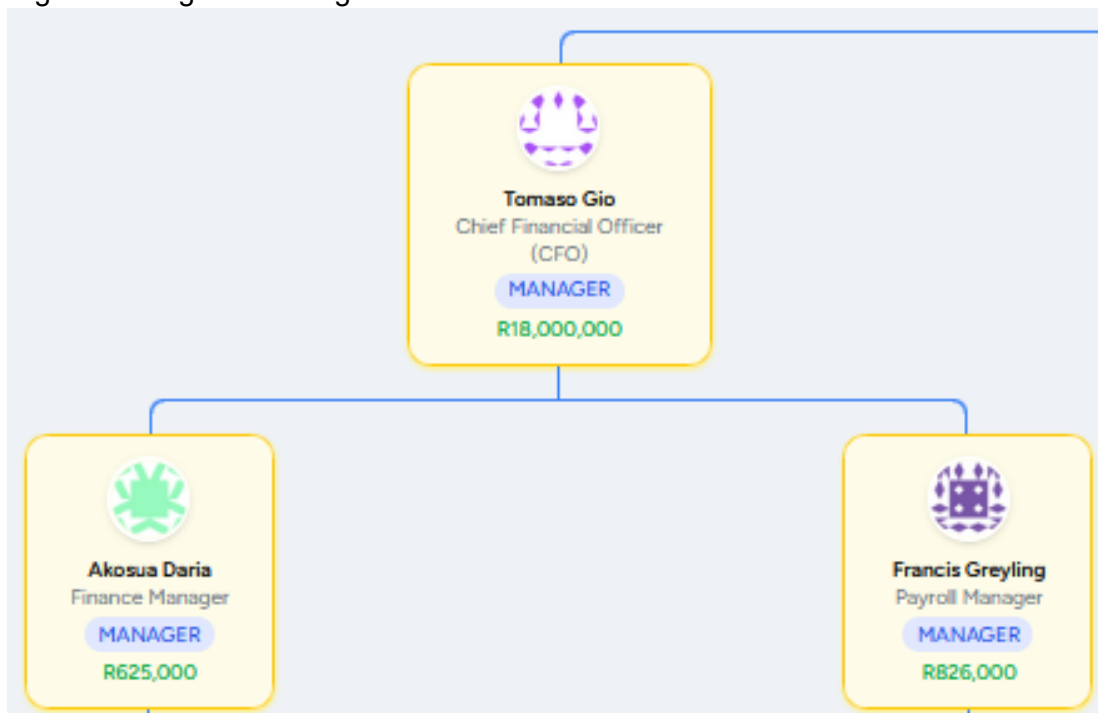

Depending on which role is viewing the hierarchy, different views will be displayed. HR can view the entire company's structure, whereas employees and managers can only see who they directly report to, but the entire branch and sub-branches below themselves.

Employees can only see who they report to and who also reports to the same manager.

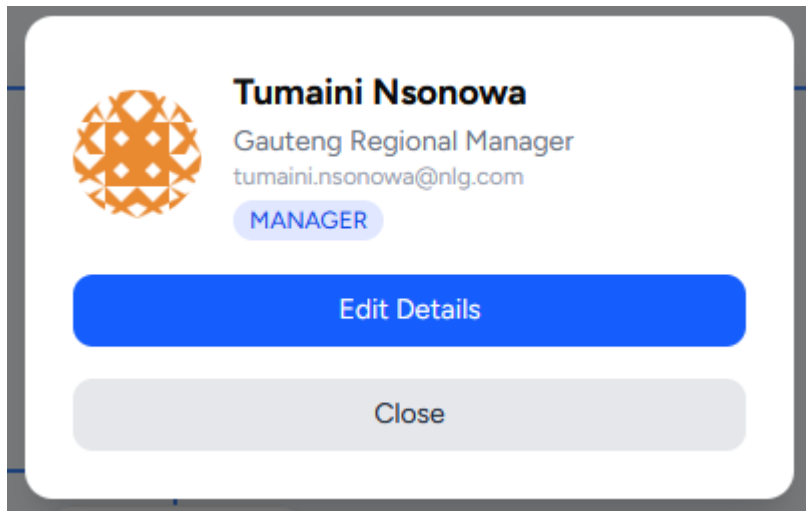

Similar to the employee list, the search feature can be used to search various fields, such as, employee number, name & surname, job title and role. When searching, the relevant nodes become highlighted with a yellow border.

E.g. searching the “Manager” role

Clicking on an employee opens a card that displays some employee information and allows HR & Managers to navigate to the “Edit Employee” page.

Leave Processes

Leave

As a bonus feature, Hire-Archy includes functionality for all users to apply for leave and see the relevant information. The user can see their leave balances. Annual leave increments each month depending on their start date, sick leave is allocated at the beginning of the cycle and resets each year, and unpaid leave can be submitted unlimited times but is subject to manager approval. The user can also see the leave requests they already have submitted and the status thereof.

Team Leave

Managers can see leave requests submitted by subordinates and accordingly approve or reject the requests. HR can see the entire organisation's leave requests and approve or reject them. Additionally, previous approved, rejected requests can be easily displayed with the page tabs.
